SPECIAL # 11 – 2020 V3 – LERWICK

Compiler: Jakob S. Arrevad: jsa@agadvokatfirma.dk

"Lerwick is the main port of the Shetland Islands, Scotland, located more than 100 miles (160 km) off the north coast of mainland Scotland on the east coast of the Shetland Mainland. Lerwick is about 210 miles (340 km) north-northeast of Aberdeen, 230 miles (370 km) west of Bergen in Norway and 230 miles (370 km) south east of Tórshavn in the Faroe Islands."¹

The beginning is true, as the information mainly is from Ib Karup Rasmussens study: "Den danske Regerings postkibsfart mellem Danmark og Island 1774-1880" – but it is complicated.

1873 – 1876 – Skilling

I start in 1873, and in that year, and in 1874, 1875 and the first trip in 1876 "Diana" is sailing via *Lerwick* or **Granton**. DFDS takes over partly and sailed with "Arcturus" in 1876 until 1.7 one trip via *Lerwick* and two via **Granton**².

Diana	1873	1.4 – 5.4	15.5	25.6 – 26.6	1.8	13.9	26.10	7.12
Diana	1874	1.4 – 4.4	15.5 – 15.5	25.6 - 23.6 ³	7.8	13.9	26.10 – 29.10	7.12
Diana	1875	After 1.4	13.5 ⁴	26.6	7.8	13.9 – 14.9 ⁵	26.10 – 28.10	7.12 – 13.12
Arcturus	1876/1	31.3	15.5	24.6 ⁶	4.8 – 5.8			
? ⁷				9.6				

¹ Wikipedia. See also Iceland Philatelic Magazine # 18 page 18

² The time is approximately – 8 days after departure in the tree first year and five days before arrival in 1876. *Lerwick* is in cursive and yellow and **Granton** in bold. Red dates are calculated from the actual recorded departure.

³ It is a transfer cancellation from Edinburgh – so the correct day in Granton may be 22.6.

⁴ Letter cancelled 13.5.1875 in Lerwick. See more in Iceland Philatelic Magazine # 13

⁵ Arrival day from Þjóðólfur 30.9.1875, se letter in "One hundred years of Icelandic Stamps" Jón Aðalsteinn Jónsson

⁶ It is not clear why both Diana and Arcturus are expected to be in Scotland almost at the same day – but it is the same in 1877

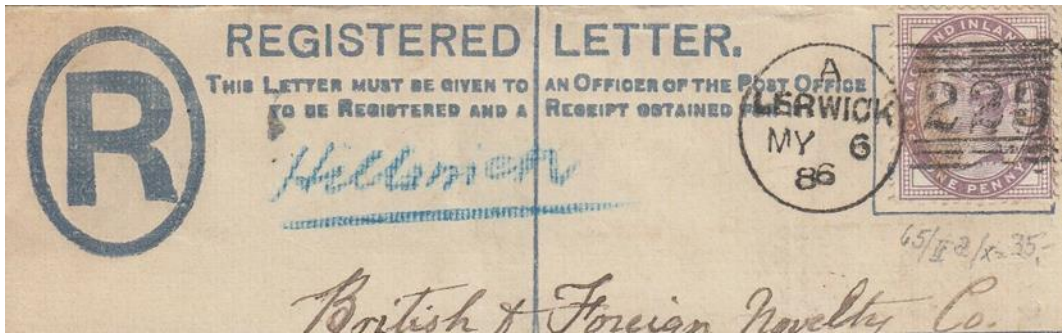

⁷ Letter from 1 og 2 June 1876, send with "English coffardir- steamer" over Edinburgh.

The letter mentioned in note 3

1886

A Duplex in-between on UK mail:

1895

Cover sent to Denmark with 16 aur canc. "ESKIFJÖRDUR 20.5". Postage due handstamp "T" mistakenly applied and then crossed out. Akureyri as well as Lerwick transit 1 JU 1895.

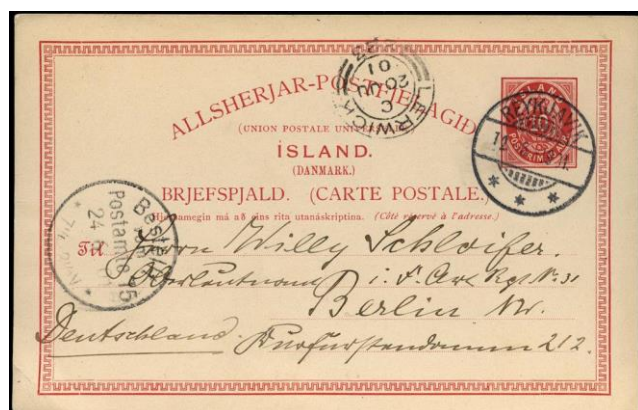

And then a big time jump to

SMS Zieten was a German warship. It came to Reykjavik 11 July and left 14 July 1901¹⁰ All the lettercards are from German mariners:

⁸ Reference unknown.

⁹ Information from an old list of Ole Svinth

¹⁰ SMS Zieten was the first aviso built for the Imperial German Navy (Kaiserliche Marine). She was built in Britain in 1875–1876. See more on Wikipedia

The request for delivery by SS Ceres immediately is hard to understand. The card is written on 17 July 1901 in Reykjavik and Ceres is expected to leave Copenhagen pr. schedule on 27 July – and it is not going direct to Reykjavik but around the island – plus, the card is not sent by the ordinary mail ships. The next ordinary mail ship direct is SS Laura scheduled to leave on 25 July.

But the ships are not on schedule.

The carrying ship is nevertheless hard to find.

Paul Kiderlen

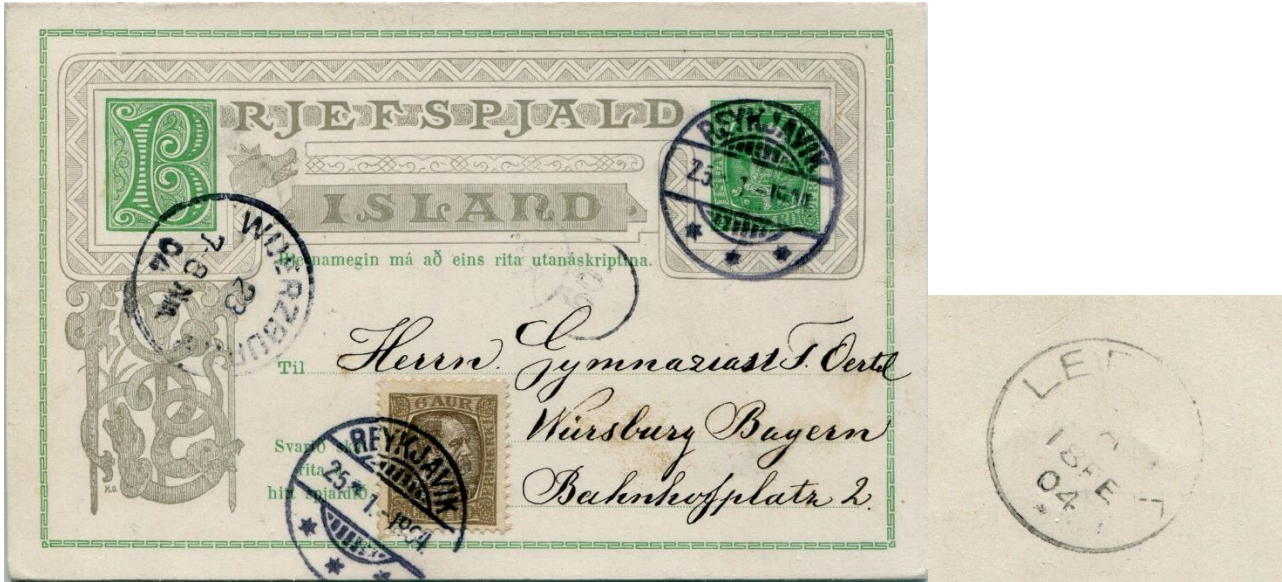

Paul Kiderlen was a German stamp dealer who dealt from Ulm, Wurtemberg, Germany from about 1890 to 1910. See: POSTAL STATIONERY COLLECTOR Volume 11 No 2: Issue No 42 August 2005 page 42 MESSRS. KIDERLEN & BICKEL - FRIENDS OR FOE Bernie Beston F.R.P.S.L., FAP. <https://postalstationeryaustralia.com/wp-content/uploads/2017/07/psc42aug05.pdf>

He dealt extensively, although not exclusively, in the postal stationery of British Colonies but Iceland could also be of interest – but to him!

The following from Stig Österbergs collection is cancelled 30.09.15

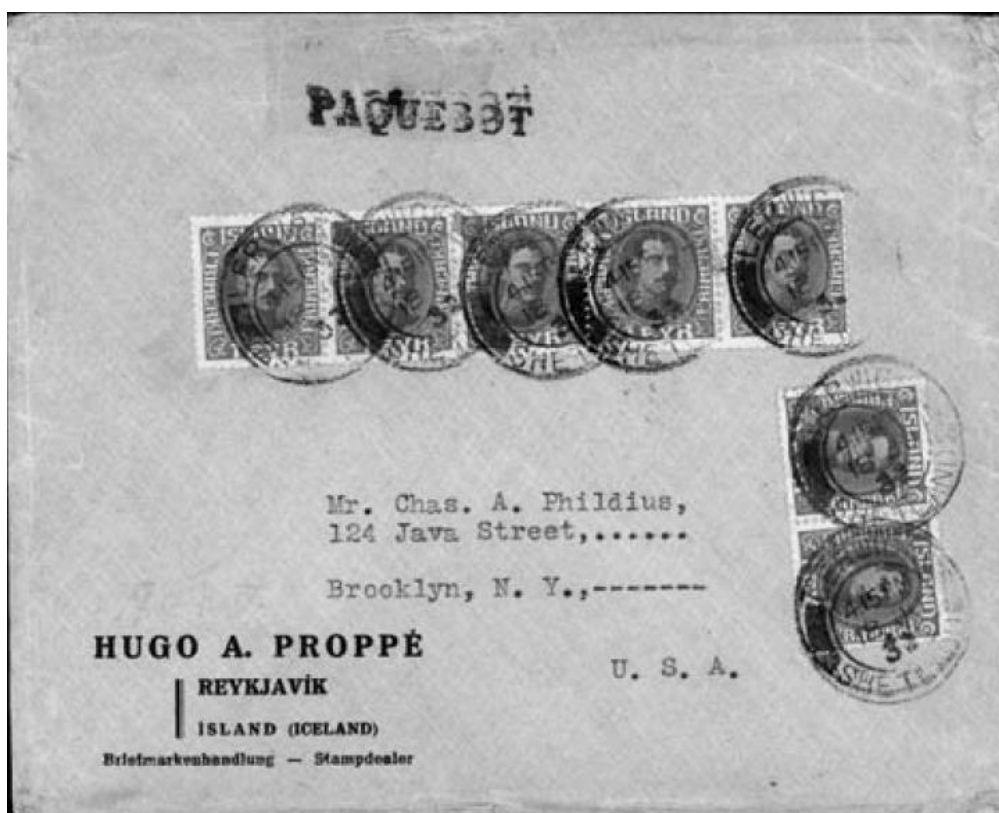

Printed matter send from Dyrafjorður 20/9 15 and on the back Lerwick 30 SP 15

The letter was sent as a printed matter the postage rate was 5 aur per 50 gram. Because of this the letter probably weighed over 50 gram if the printed matter postage rate was correct. The missing 10 aur was doubled to 20 aur since the punishment fee was twice the missing sum 2 1/2 d is in that case equivalent with the missing postage 2 1/2 d is added since the letter is forwarded.

1932

			18.06.1932	LERWICK	
--	--	--	------------	---------	--

It was part of Hoskins collection and when sold at Cavendish the text was:

LERWICK (SHETLAND IS.) - UNIQUE(?) "PAQUEBOT" MARK ON COVER TO U.S.A.; June 1932 env. (minor creasing) to New York franked by Christian X 1e Red & Green (7) all tied by fine 2-ring "LERWICK/SHETLAND" c.d.s.'s matching a fine (though slightly 'doubled') "PAQUEBOT" mark (Hosking 331 - maximum rarity "DD" - "Very rare") alongside. Surprisingly this Lerwick mark is only known for 1932-33. Roger's album page unusually outlines this item's history; "*This cover was originally the property of Vernon Ardiff, the Californian collector, but possibly not fully appreciated by him since, when his collection was sold in San Francisco at the Wolffers auction in December 1972, it was embedded in a small lot of mixed Icelandic covers which Angus Parker bought for \$130. It was considerably more expensive when I bought it from the Parker estate at Cavendish Auctions in April 2009 [lot 1337; realised £632]. This cover testifies to the knowledge and wisdom of a great collector, dealer and friend.*" PHOTO - see above.
